

Chautauqua Roadside Swales Stabilization Project

- **Grantee:** Town of Chautauqua
- **Objectives:** Improve swales at ~11 sites, stabilize ~16,600 linear feet of ditches, reduce sediment and nutrient runoff to lake, reduce erosion along roadway
- **NYS Funds:** 2021 Water Quality Improvement Project, Environmental Protection Fund Administered by NYS Dept. of Environmental Conservation
- **Matching Funds:** In-kind construction work by the Town
- **Partners:** Alliance, Barton & Loguidice
- **Status:** Construction by Town Highway Department started in Fall 2024

Pictured above is a newly stabilized swale on Burdick Road. Note the stable shoulder and rock-lined channel designed to improve road safety, reduce erosion, and improve the quality of water flowing to Chautauqua Lake.
